Oasis Intergenerational Tutoring Program is entering our 8th year here at Brett School. We have loved working with your kids and wonder if you would like to join us this year! We give a boost to kids who need some extra loving reading time. We come one hour one day a week and work with the same one child for the year. No special requirements for you...just a willingness to consistently be there for a child. We will train you, get you materials and support you throughout the year. We'd love to have you help us help a child.

Thanks, Sue Colten 323-9717 scolten2@gmail.com or Margaret Rieser 323-9430

Community Events

Cook Memorial Library ~ On Wednesday, September 14th at 7:00 at the Cook Memorial Library, a program titled Tiny Houses: A Very Different Approach to Home Ownership will be presented. The talk focuses on the basics of planning for and owning a tiny house on wheels; both its challenges and advantages. It offers insights unique from the currently popular tiny house themed TV shows, from approximately "how much" and "where to live", to the efficient use of space and the management of composting toilets. The presentation addresses options for their general design, and heat, hot water and electricity choices, among other components. Living in a tiny house year-round is a topic of rapidly developing debate. Learn why something so "cute" and compact could cause so much discussion!
